FINANCIAL STATEMENTS**

**30 JUNE 2018 (REVIEWED)**

## **REPORT ON REVIEW OF INTERIM CONDENSED FINANCIAL STATEMENTS TO THE BOARD OF DIRECTORS OF NATIONAL HOTELS COMPANY B.S.C.**

### **Introduction**

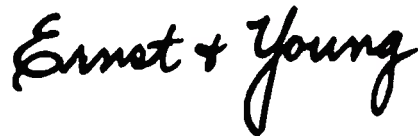

We have reviewed the accompanying interim condensed financial statements of National Hotels Company B.S.C. ("the Company") as at 30 June 2018, comprising of the interim statement of financial position as at 30 June 2018 and the related interim statement of profit or loss, interim statement of other comprehensive income, interim statement of changes in equity and interim statement of cash flows for the six-month period then ended and explanatory notes. The Board of Directors is responsible for the preparation and presentation of these interim condensed financial statements in accordance with International Accounting Standard 34 *Interim Financial Reporting* ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

### **Scope of review**

We conducted our review in accordance with the International Standard on Review Engagements 2410, "*Review of Interim Financial Information Performed by the Independent Auditor of the Entity*". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with IAS 34.

## 1 CORPORATE INFORMATION

National Hotels Company B.S.C. (the "Company") is a public joint stock company incorporated in the Kingdom of Bahrain and registered with the Ministry of Industry, Commerce and Tourism under commercial registration (CR) number 1665. The address of the registered office of the Company is P.O. Box 5243, Building 59, Road 1701, Block 317, Diplomatic Area, Kingdom of Bahrain. The Company owns the Diplomat Radisson BLU Hotel, which is managed by Rezidor Hotel Group ("Rezidor") under a 15 year management agreement dated 20 July 2000. In 2007, the Company commenced the operations of its serviced apartments, which are also managed by Rezidor under a 12 year management agreement dated 6 May 2003. In 2012, the Company commenced the operations of its office towers, which are managed by the Company directly. In 2015, the management agreement was amended to extend the period up to 31 December 2030.

The Company operates solely in the Kingdom of Bahrain.

### *Associate*

The Company has a 33.33% interest in African & Eastern (Bahrain) W.L.L. (2017: 33.33%).

The interim condensed financial statements were authorised for issue in accordance with a resolution of the Board of Directors on 19 July 2018.

## 2 FUNDAMENTAL ACCOUNTING CONCEPT

The Company's current liabilities exceeded its current assets by BD 1,641,877 as at 30 June 2018. However, the interim condensed financial statements have been prepared on a going concern basis as management considered, amongst others, the following in arriving at their conclusion:

- The Company has quoted equity investments at fair value through other comprehensive income of BD 2,208,869 at 30 June 2018 that are classified as non-current but are readily tradeable;
- The Company has unutilised overdraft facilities balance of BD 3,836,539 at 30 June 2018;
- Out of current liabilities balance of BD 3,326,437, an amount of BD 94,878 represents advances from customers and deposits that will not result in cash outflows in the future.

## 3 ACCOUNTING POLICIES

### **Basis of preparation**

The interim condensed financial statements for the six months ended 30 June 2018 have been prepared in accordance with International Accounting Standard 34 - "Interim Financial Reporting".

The interim condensed financial statements do not contain all information and disclosures required for full financial statements prepared in accordance with International Financial Reporting Standards, and should be read in conjunction with the Company's annual financial statements as at 31 December 2017. In addition, results for the six months ended 30 June 2018 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2018.

### **Significant accounting policies**

The accounting policies adopted in the preparation of the interim condensed financial statements are consistent with those followed in the preparation of the Company's annual financial statements for the year ended 31 December 2017, except for the adoption of new standards effective as of 1 January 2018. The Company has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

**3 ACCOUNTING POLICIES (continued)**

**Significant accounting policies (continued)**

The Company applies, for the first time, *IFRS 15 Revenue from Contracts with Customers* and *IFRS 9 Financial Instruments* that require restatement of previous financial statements. As required by IAS 34, the nature and effect of these changes are disclosed below.

*IFRS 15 Revenue from Contracts with Customers*

IFRS 15 supersedes IAS 11 Construction Contracts, IAS 18 Revenue and related Interpretations and it applies to all revenue arising from contracts with customers, unless those contracts are in the scope of other standards. The new standard establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer.

The standard requires entities to exercise judgement, taking into consideration all of the relevant facts and circumstances when applying each step of the model to contracts with their customers. The standard also specifies the accounting for the incremental costs of obtaining a contract and the costs directly related to fulfilling a contract.

The adoption of IFRS 15 has no material impact on the Company's interim condensed financial statements.

*(a) Sale of goods*

The Company's contracts with customers for the sale of food and beverages generally include one performance obligation. The Company has concluded that revenue from sale of food and beverages should be recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the food and beverages. Therefore, the adoption of IFRS 15 did not have an impact on the timing of revenue recognition.

*(b) Room revenue*

Room revenue from hotel operations represents total amounts charged to customers and guests during the period including service charges net of the portion applicable to employees as and where applicable, plus unbilled guests ledger at the end of the reporting period. Revenue from hotel operations is stated net of rebates and other allowances. These services are sold either separately or bundled together with the sale of food and beverages to a customer. Under IFRS 15, the Company concluded that room revenue from hotel operations will continue to be recognised over time, commensurate with the previous accounting policy, because the customer simultaneously receives and consumes the benefits provided by the Company. Revenue from the sale of the food and beverages will continue to be recognised at a point in time, upon delivery of the food and beverages.

*(c) Advances received from customers*

Generally, the Company receives short-term advances from its customers. Upon the adoption of IFRS 15, for short-term advances, the Company used the practical expedient. As such, the Company will not adjust the promised amount of the consideration for the effects of a financing component in contracts, where the Company expects, at contract inception, that the period between the time the customer pays for the good or service and when the Company transfers that promised good or service to the customer will be one year or less.

*IFRS 9 Financial Instruments*

*IFRS 9 Financial Instruments* replaces *IAS 39 Financial Instruments: Recognition and Measurement* for annual periods beginning on or after 1 January 2018, bringing together all three aspects of the accounting for financial instruments: classification and measurement; impairment; and hedge accounting.

**3 ACCOUNTING POLICIES (continued)**

**Significant accounting policies (continued)**

*IFRS 9 Financial instruments (continued)*

The Company has applied IFRS 9 retrospectively, with the initial application date of 1 January 2018 and reclassified the comparative information for the six months period ended 30 June 2018 as follows:

- Equity investments previously classified as available-for-sale (AFS) has been reclassified to investments at fair value through other comprehensive income (FVOCI);
- Debt investments previously classified as AFS has been reclassified to debt instruments at amortised costs;
- Equity investments previously classified as held-for-trading has been reclassified to investments at fair value through profit or loss (FVPL).

*(a) Classification and measurement*

The Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVPL, transaction costs.

The new classification and measurement of the Company's debt financial assets are, as follows:

- *Debt instruments at amortised cost* for financial assets that are held within a business model with the objective to hold the financial assets in order to collect contractual cash flows that meet the solely payments of principal and interest ("SPPI") criterion. This category includes the Company's trade and other receivables and Government Development Bonds included under investments.
- *Debt instruments at FVOCI*, with gains or losses recycled to profit or loss on derecognition. The Company does not have any debt instrument accounted in this category.

Other financial assets are classified and subsequently measured, as follows:

- *Equity investments at FVOCI*, with no recycling of gains or losses to profit or loss on derecognition. This category only includes equity investments which the Company intends to hold for the foreseeable future and which the Company has irrevocably elected to so classify upon initial recognition or transition. The Company classified certain of its equity investments as equity investments at FVOCI. Equity investments at FVOCI are not subject to an impairment assessment under IFRS 9. Under IAS 39, these Company's quoted and unquoted equity investments were classified as AFS investments.
- *Equity investments at FVPL* comprises quoted equity investments which the Company had not irrevocably elected, at initial recognition or transition, to classify at FVOCI. This category would also include debt instruments whose cash flow characteristics fail the SPPI criterion or are not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell. Under IAS 39, these Company's quoted equity investments were classified as held-for-trading investments.

The assessment of the Company's business models was made as of the date of initial application, 1 January 2018, and then applied retrospectively to those financial assets that were not derecognised before 1 January 2018. The assessment of whether contractual cash flows on debt instruments are solely comprised of principal and interest was made based on the facts and circumstances as at the initial recognition of the assets.

The accounting for the Company's financial liabilities remains largely the same as it was under IAS 39. Similar to the requirements of IAS 39, IFRS 9 requires contingent consideration liabilities to be treated as financial instruments measured at fair value, with the changes in fair value recognised in the statement of profit or loss.

**3 ACCOUNTING POLICIES (continued)**

**Significant accounting policies (continued)**

*IFRS 9 Financial instruments (continued)*

*(b) Impairment*

The adoption of IFRS 9 has fundamentally changed the Company's accounting for impairment losses for financial assets by replacing IAS 39's incurred loss approach with a forward-looking expected credit loss (ECL) approach. IFRS 9 requires the Company to record an allowance for ECLs for all loans and other debt financial assets not held at FVPL.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

For trade and other receivables, the Company has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Company has established a provision matrix that is based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Company considers a financial asset in default when contractual payment are 120 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company.

The impact of adoption of IFRS 9 on the Company's interim condensed financial statements was disclosed above in this section.

The following other amendments and interpretation apply for the first time in 2018, but do not have a material impact on the interim condensed financial statements of the Company.

- *IFRIC Interpretation 22 Foreign Currency Transactions and Advance Considerations;*
- *Amendments to IAS 40 Transfers of Investment Property;*
- *Amendments to IFRS 2 Classification and Measurement of Share-based Payment*
- *Amendments to IFRS 4 Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts;*
- *Amendments to IAS 28 Investments in Associates and Joint Ventures - Clarification that measuring investees at fair value through profit or loss is an investment-by-investment choice; and*
- *Amendments to IFRS 1 First-time Adoption of International Financial Reporting Standards - Deletion of short-term exemptions for first-time adopters.*

**4 PROPERTY, PLANT AND EQUIPMENT**

During the six months ended 30 June 2018, the Company incurred capital expenditure amounting to BD 3,012,857 (six months ended 30 June 2017: BD 172,152, year ended 31 December 2017: BD 1,907,136) on its various capital expenditure projects.

No assets were written off by the Company during the six months ended 30 June 2018 (six months ended 30 June 2017: same, year ended 31 December 2017: BD 55,927).

### 5 INVESTMENT IN AN ASSOCIATE

The Company has a 33.33% interest in African & Eastern (Bahrain) W.L.L. (the "Associate"), which is incorporated in the Kingdom of Bahrain and is involved in the business of investment in bonds and shares as well as importing and selling consumer products. African & Eastern (Bahrain) W.L.L. is a private entity that is not listed on any public exchange. As at 31 December 2017, the Company held the following classes of assets measured at fair value:

<i>Fair value measurement using (Audited)</i>					
	<i>Date of valuation</i>	<i>Quoted prices in active markets (Level 1)</i>	<i>Significant observable inputs (Level 2)</i>	<i>Significant unobservable inputs (Level 3)</i>	<i>Total (Audited)</i>

<i>Revalued freehold land</i>	<i>2 March 2017</i>	-	-	<b>31,774,218</b>	<b>31,774,218</b>

Fair value of financial instruments is estimated based on the following methods and assumptions:

- Cash and bank balances, trade and other receivables, current portion of term loan and trade and other payables approximate their carrying amounts largely due to the short-term maturities of these financial instruments.
- The fair values of the quoted investments are determined by reference to published price quotations in an active market.
- The fair values of unquoted equity investments have been estimated using other appropriate valuation techniques, and using of recent arm's length market transactions, or current fair value of another similar instrument as applicable.
- The fair value of freehold land has been estimated based on valuation estimates of a third party independent valuer. The valuation undertaken is based on open market value, supported by market evidence in which an asset could be exchanged between a knowledgeable willing buyer and a knowledgeable willing seller in an arm's length transaction at the date of valuations and appropriate adjustments for liquidity and other discount factors.

During the reporting periods ended 30 June 2018 and 30 June 2017 and year ended 31 December 2017, there have been no transfers between Level 1, Level 2 and Level 3 fair value hierarchy.

There is no movement in the unquoted equity shares and revalued freehold land, therefore, reconciliation of Level 3 fair value hierarchy is not disclosed.
